MOTOX

“ ONE OF THE LARGEST OUTBOARD MANUFACTURERS ”

Parsun is one of the largest outboard engine manufacturers in the world, with exceptional price-to-performance ratio, offering affordable yet highly fuel-efficient engines.

Parsun is committed to the delivering best-in-class outboard engines, complemented by reliable after-sales support.

FEATURES & CAPABILITIES

- **Highly Integrated Structure**

A lightweight, compact shell that conceals powerful performance and rapid acceleration.

- **Quieter Operation**

Exhaust is routed through the propeller's center hub to reduce both noise and vibration.

- **Outstanding Fuel Economy**

Parsun's electronic fuel injection system delivers the precise air-fuel ratio needed for optimal engine efficiency.

- **Power to Meet Your Needs**

A high-output alternator supplies extra starting power and supports your onboard electronic equipment.

- **Maximum Thrill and Enjoyment**

Choose between manual or electric start, with remote control options to match your driving preference.

- **Environmentally Friendly**

Ultra-low emissions with CE and EPA certification for cleaner, greener performance.
